*ABOUT*

MAXIM SPIJKERS

From an early age I have been fascinated by the form of Hospitality. Everywhere I go or stand, I see points for improvement within a certain working method. From beach clubs to bistros and from restaurants to mobile cocktail bars. At the moment I have started a new step in my hospitality career at Models at Work and, in addition to working on the floor, I am constantly working on improving processes at the company where I work.

Could you use some extra creativity within your business? Feel free to send an email to [Molligmakend@outlook.com](mailto:Molligmakend@outlook.com) and maybe WE will make sure that your business becomes even more profitable together.

## WHAT MAKES ME POPULAR

# *HOSPITALITY*

Combining the two worlds that are currently extremely triggered ensures that I can reach a large target group.

If you take good care of yourself I call it "Molligmakend". When you take care of yourself, you look your best. Whether that's because you do a lot of sports, meditate a lot, do yoga or enjoy yourself with friends ;) As a person I am always very busy and that often works to my advantage as a Restaurant Manager. Yet I have managed to find a special way of peace in modeling. Where I always thought it wasn't for me, I turned out to be calm in front of a camera. That's why I started developing this form of meditation and see for yourself what you think of it:
